Futurewise

For more than 25 years, Futurewise has worked to prevent sprawl in order to protect our State's resources and make our urban areas livable for and available to all. Founded to help support implementation of the first-in-the-nation Growth Management Act, we focus on preventing the conversion of wildlife habitat, open space, farmland, and working forests to subdivisions and development, while directing most growth into our urbanized areas. Our mission also incorporates an important focus on **livability, housing, transportation, social justice, environmental justice and environmental quality** in our urbanized areas.

Leadership Tomorrow

Leadership Tomorrow was founded in 1982 through a collaboration between the Greater Seattle Chamber of Commerce and the United Way of King County to enhance the civic participation of emerging leaders within the region. The Founders' vision was to bring together a diverse group of individuals who would build lasting networks in order **to address regional issues and create a positive community** for current and future generations.
